

National Workshop on
“DSpace Software: Digital Collection Building and Archiving” 2018 November 10-11
School of Engineering, Cochin University of Science and Technology
Cochin-22 Kerala
Under TEQIP - Phase III

DSpace is an open source software platform developed by MIT Libraries and HP Labs in 2002 for building digital libraries/repositories. The software is being used by numerous universities and colleges across the globe. The world class universities like Oxford, Cambridge, MIT etc use DSpace. In India many IITs and universities have built their digital system on DSpace. Shodhganga, the Indian ETD repository is running on DSpace.

The DSpace software is free to download and use. But the techniques of installation, customization and collection building require proper training gained from experienced hands. This workshop is intended to offer theoretical and practical knowledge on DSpace. The workshop shall also impart knowledge on scanning process to convert the analogue documents to digital forms. CUSAT is maintaining the Cusat Digital Library on DSpace (dspace.cusat.ac.in) since 2007. It has more than ten thousand digital materials. The workshop shall focus more on collection building.

Topics Covered

Creating Communities and Collections
The creation of digital documents
Uploading of Documents
Giving Metadata, Citation
Enabling Google and Google Scholar to index metadata from DSpace systems
Malayalam and Hindi Language Integration
System Maintenance in online environment
Servers and Scanners

Resource Persons

CUSAT Digital Library Team Members

Registration Fee Rs. 500/-
School of Engineering Participants
Rs. 250/-

Workshop Co-ordinator & Contact Person

Dr.Surendran Cherukodan
Assistant Librarian
School of Engineering
CUSAT. Cochin-22
Mobile: 9447579411
Email: scherukodan@gmail.com

Venue: Day One: NLB Seminar Hall, School of Engineering Main Campus.

Venue: Day Two: CIRM Lab (Computer Centre) Main Campus. Near University Library.
