

**Department of Instrumentation, Cochin University of Science and
Technology**

**Action Taken Report on Feedback collected from students, alumni, teachers and
employers on Syllabus and Curriculum Revision**

Sl No.	Feedback	Actions Taken
1.	Open courses need to be introduced	Open courses are introduced towards the end semester of the course, more elective subjects, virtual instrumentation lab, embedded system, VLSI, communication papers also included in the syllabus.
2	Industry relevant papers and laboratory experience are needed	
3	More flexibility in learning	
5	Repetitions in the syllabus should be avoided	Merged topics which were repeated under different subjects.
6	Outcome based learning should be introduced	Set course outcome for each subject
7	Support for improving communication skill	Communication Lab introduced in B Tech. second semester
